

MINI-01 signals each time the point of the weapon is touched.

Neither the points on the piste or the adversary's guard, nor the ones carried out after expiry of the reply time (double coupe) are thus impeded. It is ideal for training as there is no need for wire spools, pistes, cables or signalling equipment.

Main features:

- Low cost.
- Extremely small dimensions: 4 x 5 x 1.7cm (excluding pins).
It has to be inserted directly in the épée socket.
- Both acoustic (buzzer) and visual (led) point contact signalling.
The signal stays on for approx. 1 second.
- Sturdy metal container.
- 12V battery included (common radio control battery, type A23 or VR22).
Battery life is approx. 5,000 points!
- Contact time of the point complies with F.I.E. rules.
